## TECHNICAL SKILLS

| | |
|---|---|
| Programming Languages: | C, C++, Python, JavaScript, TypeScript, SQL |
| Web Technologies: | HTML, CSS, REST APIs, Tailwind CSS, React |
| Backend & Databases: | Node.js, Express.js, FastAPI, MongoDB, MySQL |
| ML & LLMs: | Scikit Learn, Tensorflow, RAG Pipelines, Transformer Models |
| Tools & Platforms: | Git, GitHub, Docker, Postman, Vercel, Netlify |
| Core CS Concepts: | Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Basic System Design |

## WORK EXPERIENCE

Summer Research Intern (On-Site) - SRM University AP 2025(April - September)

- Built an AI-driven assessment platform enabling automated evaluations, strong exam integrity, and real-time performance monitoring.
- Improved responsiveness by optimizing API flow and reducing unnecessary network calls, ensuring stable performance even on weak networks.
- Implemented JWT-based secure access, added tab-switch and screen-sharing detection, and used a modular system-design approach for scalable exam logic, authentication, monitoring, and analytics.

## PROJECTS

EduYatra |Gemini API, RAG, ChromaDB, Sentence-Transformers, FastAPI, Tesseract OCR

- Developed an AI-powered exam system using Node.js + FastAPI with automated question generation, OCR-based answer extraction, and LLM-driven evaluation for 200+ students.
- Built a full RAG pipeline using Sentence-Transformers + ChromaDB for semantic retrieval, enabling contextual grading and an AI learning assistant, improving evaluation speed by 70%.

AI Teaching Agent |Python, Streamlit, Ollama, Agno, SQLite, Redis, Prolog

- Developed an offline multi-agent AI learning platform using Python, Streamlit, Ollama, Agno, SQLite, Redis, and Prolog with specialized Professor, Advisor, Librarian, and TA agents for personalized learning.
- Implemented intelligent query routing, Prolog-based prerequisite tracking, persistent chat history, and downloadable AI-generated study notes to deliver adaptive and context-aware learning assistance.

AIRA| React, FastAPI, LangChain, LangGraph, MongoDB, Qdrant, Groq

- Built an AI-powered interview platform with a lip-synced 3D avatar, RAG-based retrieval, and personalized technical interviews using resumes, job descriptions, and GitHub repositories.
- Designed a hybrid queue architecture with parallel LangGraph agents (Send API) for document ingestion, evaluation, and dynamic question generation, reducing response latency by 80% (10s → 2s). at scale

## EDUCATION

SRM University-AP July 2023 – Present
Bachelor of Technology in Computer Science and Engineering

- Coursework: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems, Computer Networks

Trinity International SS & College, Kathmandu, Nepal 2021 – 2023
Class XII

## CERTIFICATION

- Oracle Certified Professional: Java SE 17 Developer Certificate
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate Certificate
- MongoDB Certified Associate Developer Certificate
